

Stormwater Inlet Stencils

Spring Township in conjunction with our local Girl Scout Troop are helping to raise awareness of stormwater pollution, as it is related to the MS4 project.

This awareness campaign involves painting a stencil with the phrase: "Dump No Waste, Drains to **Logan Branch**" directly behind various stormwater inlets.

Stenciling will occur weather permitting on Wednesday May 5th, 2021 from 5:30 to 7:30 pm along Steeplechase Drive. We ask that motorists to please be cautious while traveling through that area.

Big thanks to our local Girls Scouts for their environmental efforts.
